

# N. Mockups

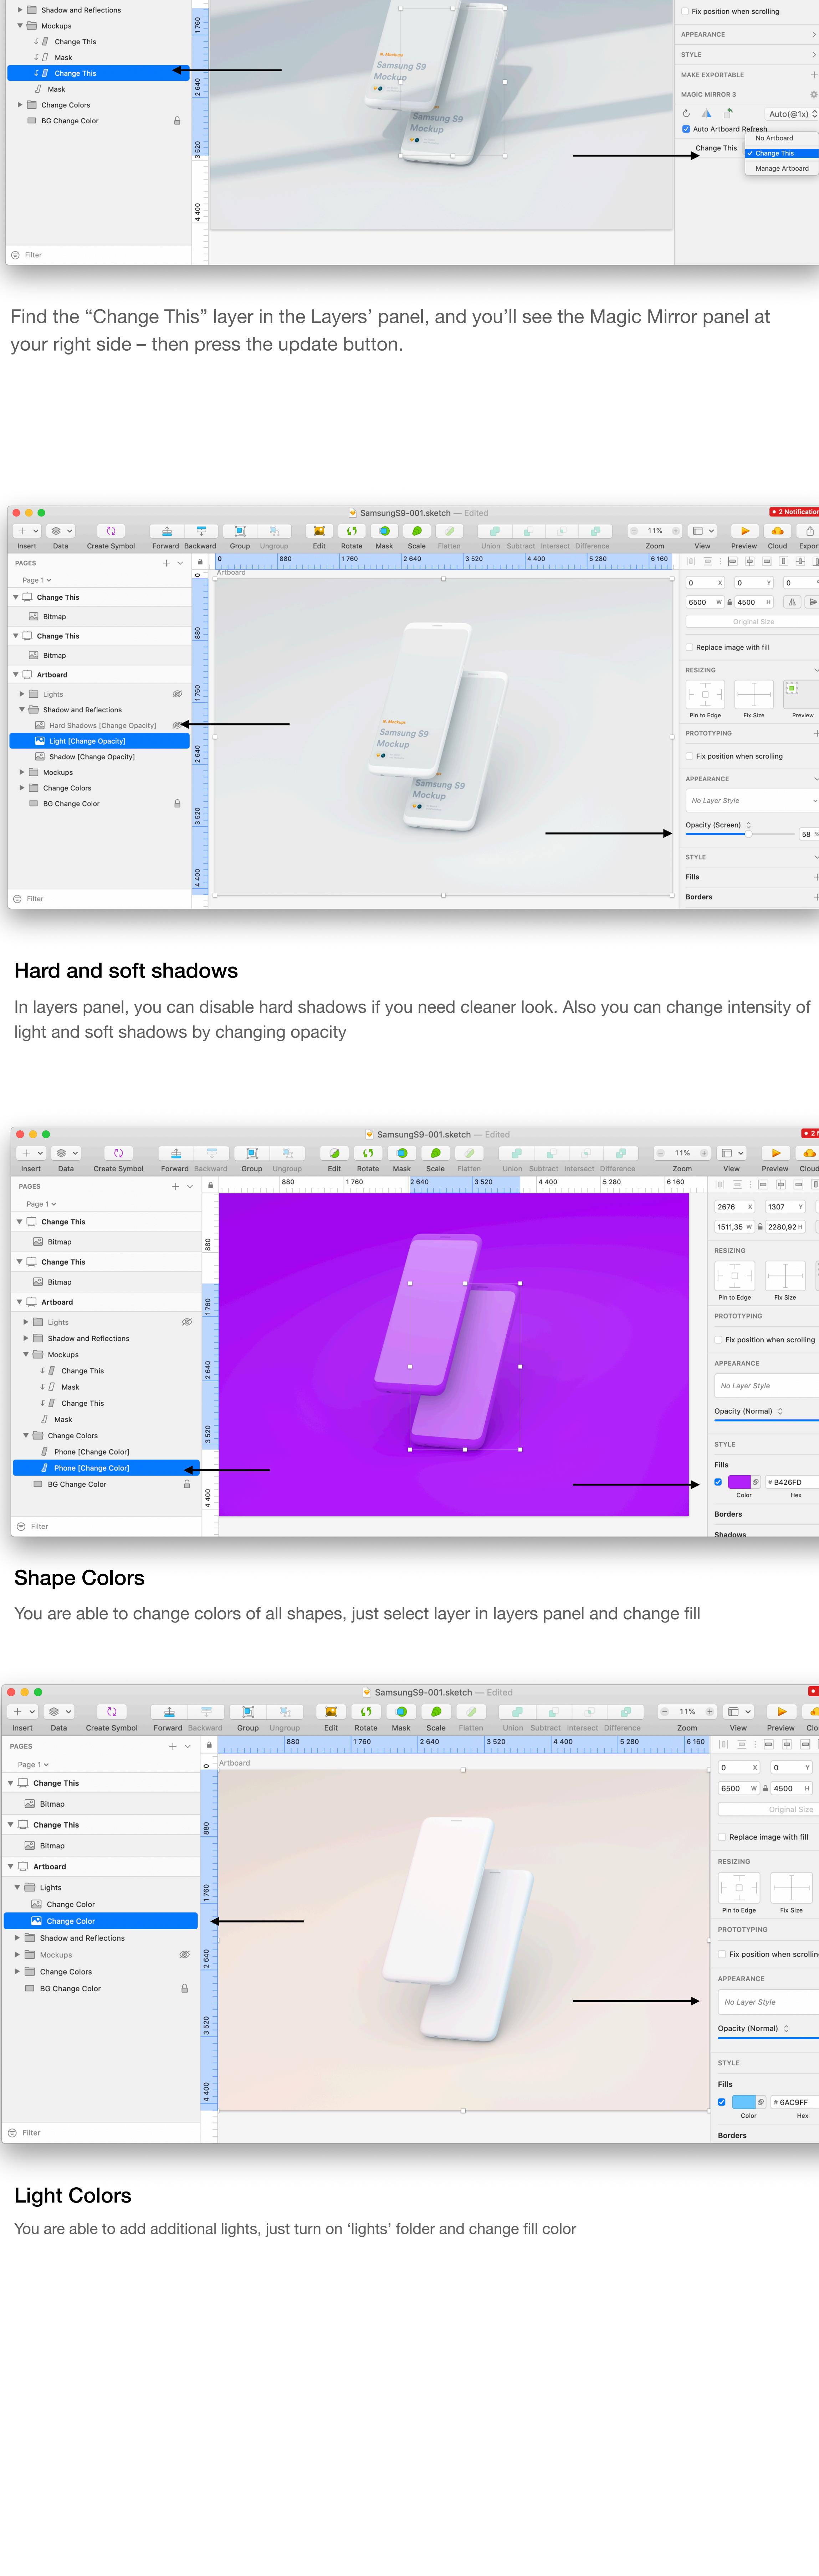

## Sketch version

You need to have Sketch 52,3+ version and free version of Magic Mirror plugin. Download and install plugin <https://magicsketch.io/mirror/>

First of all, you need to turn on the plugin. To do so, open the Plugins – Magic Mirror 3 – Enable Magic Mirror

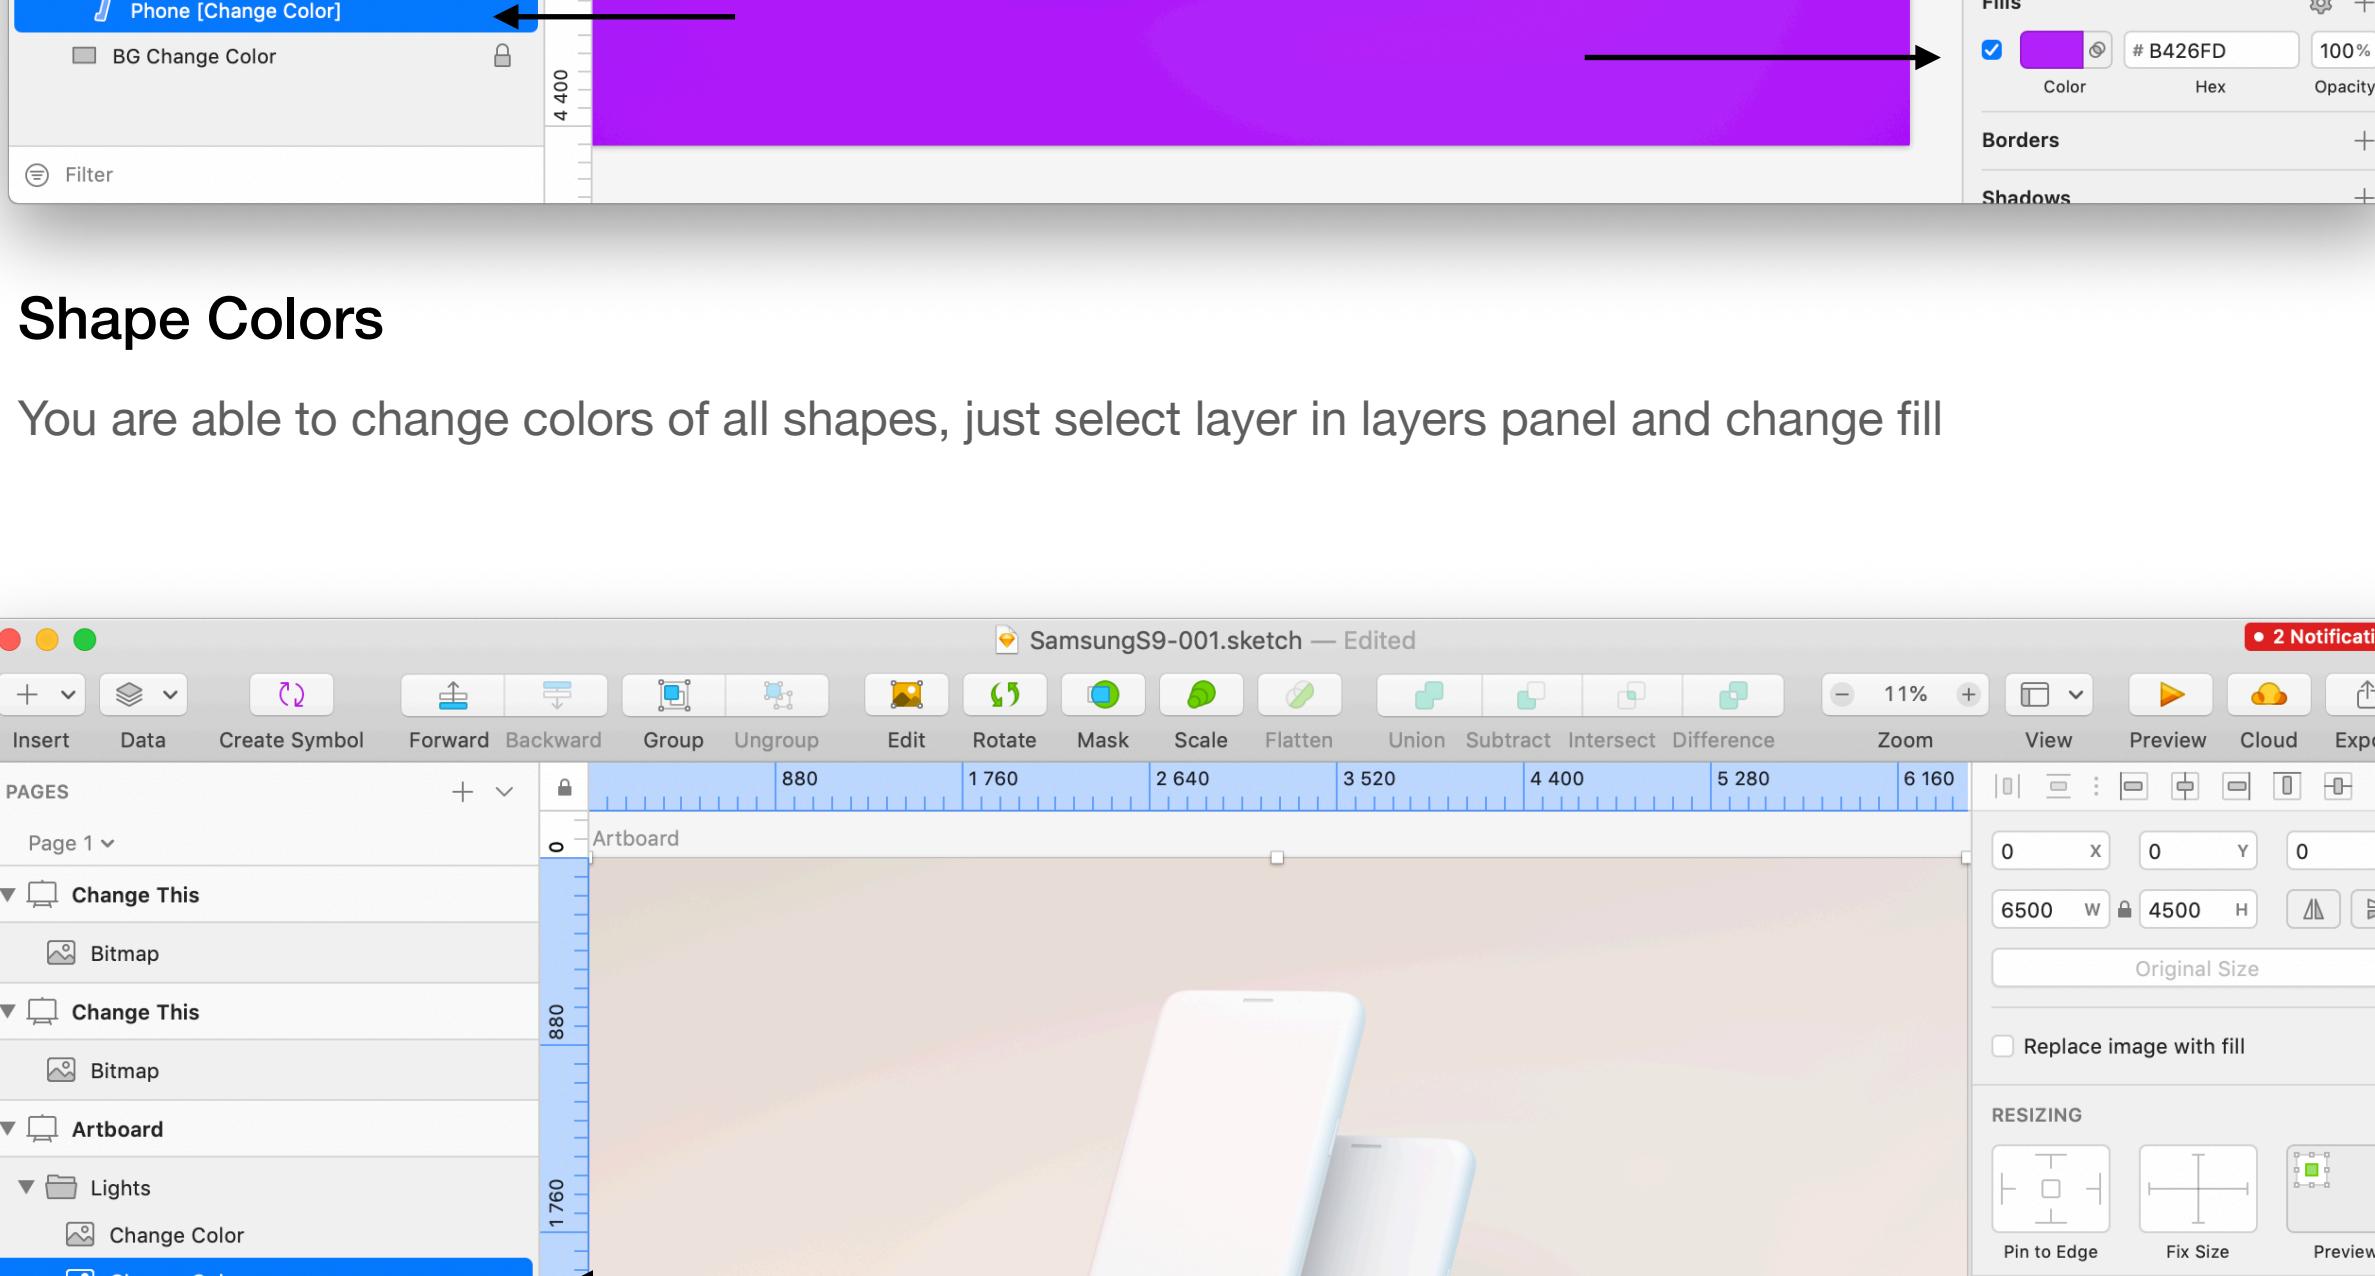

Then, find ‘Change This’ artboard and paste your design inside

Find the “Change This” layer in the Layers’ panel, and you’ll see the Magic Mirror panel at your right side – then press the update button.

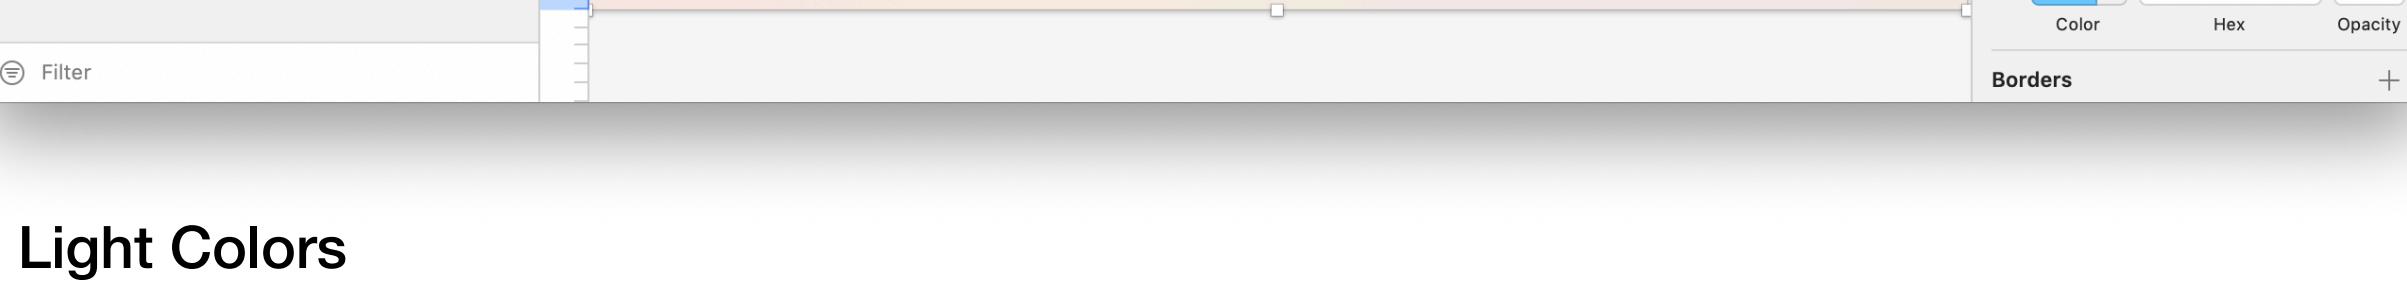

## Hard and soft shadows

In layers panel, you can disable hard shadows if you need cleaner look. Also you can change intensity of light and soft shadows by changing opacity

## Shape Colors

You are able to change colors of all shapes, just select layer in layers panel and change fill

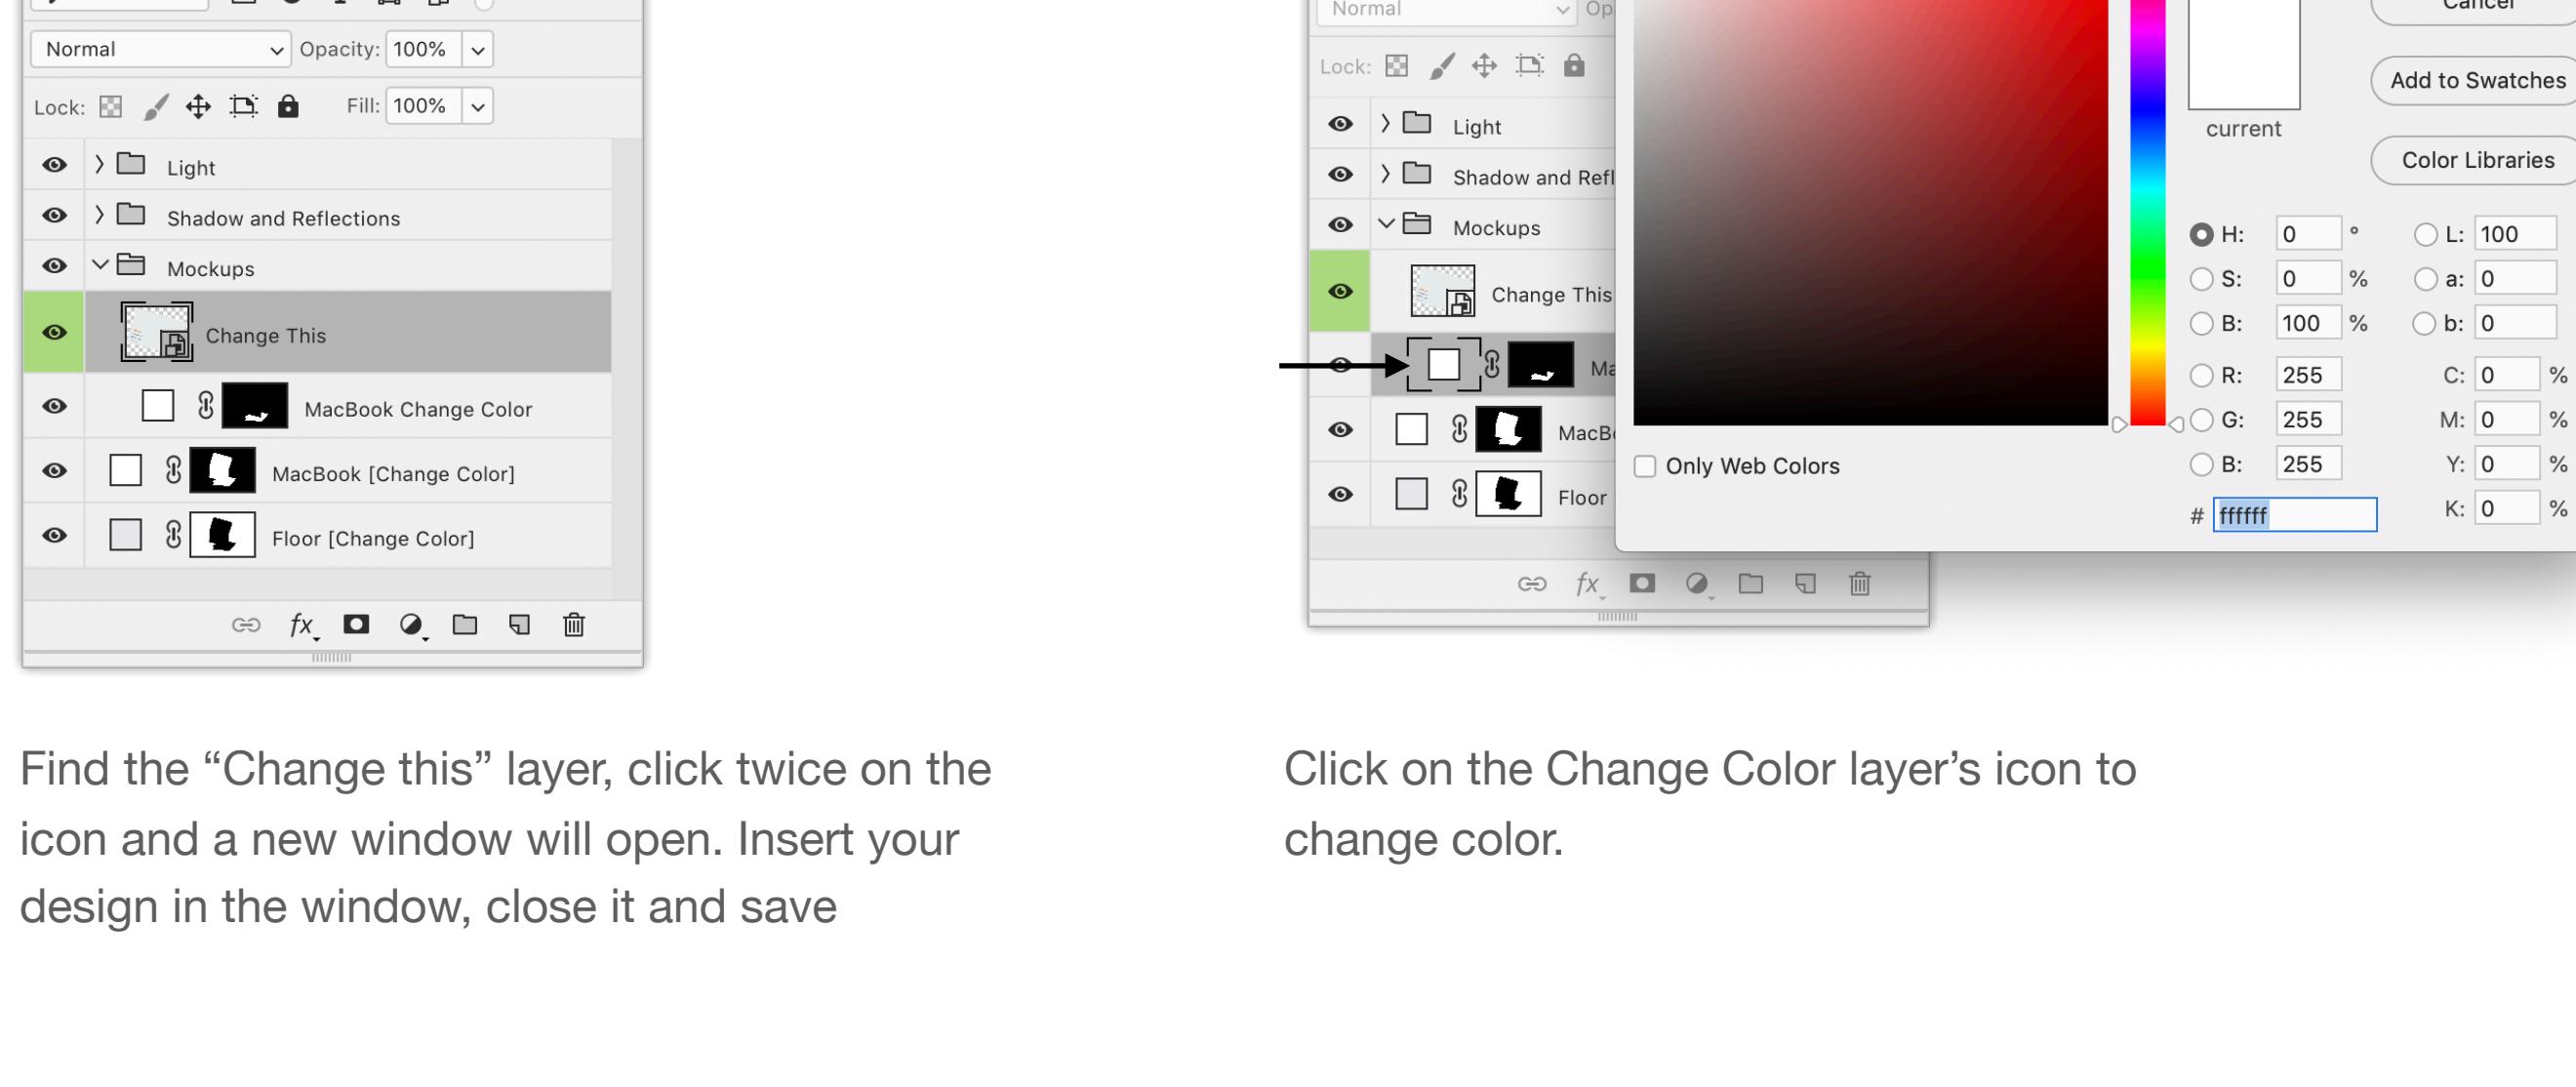

## Light Colors

You are able to add additional lights, just turn on ‘lights’ folder and change fill color

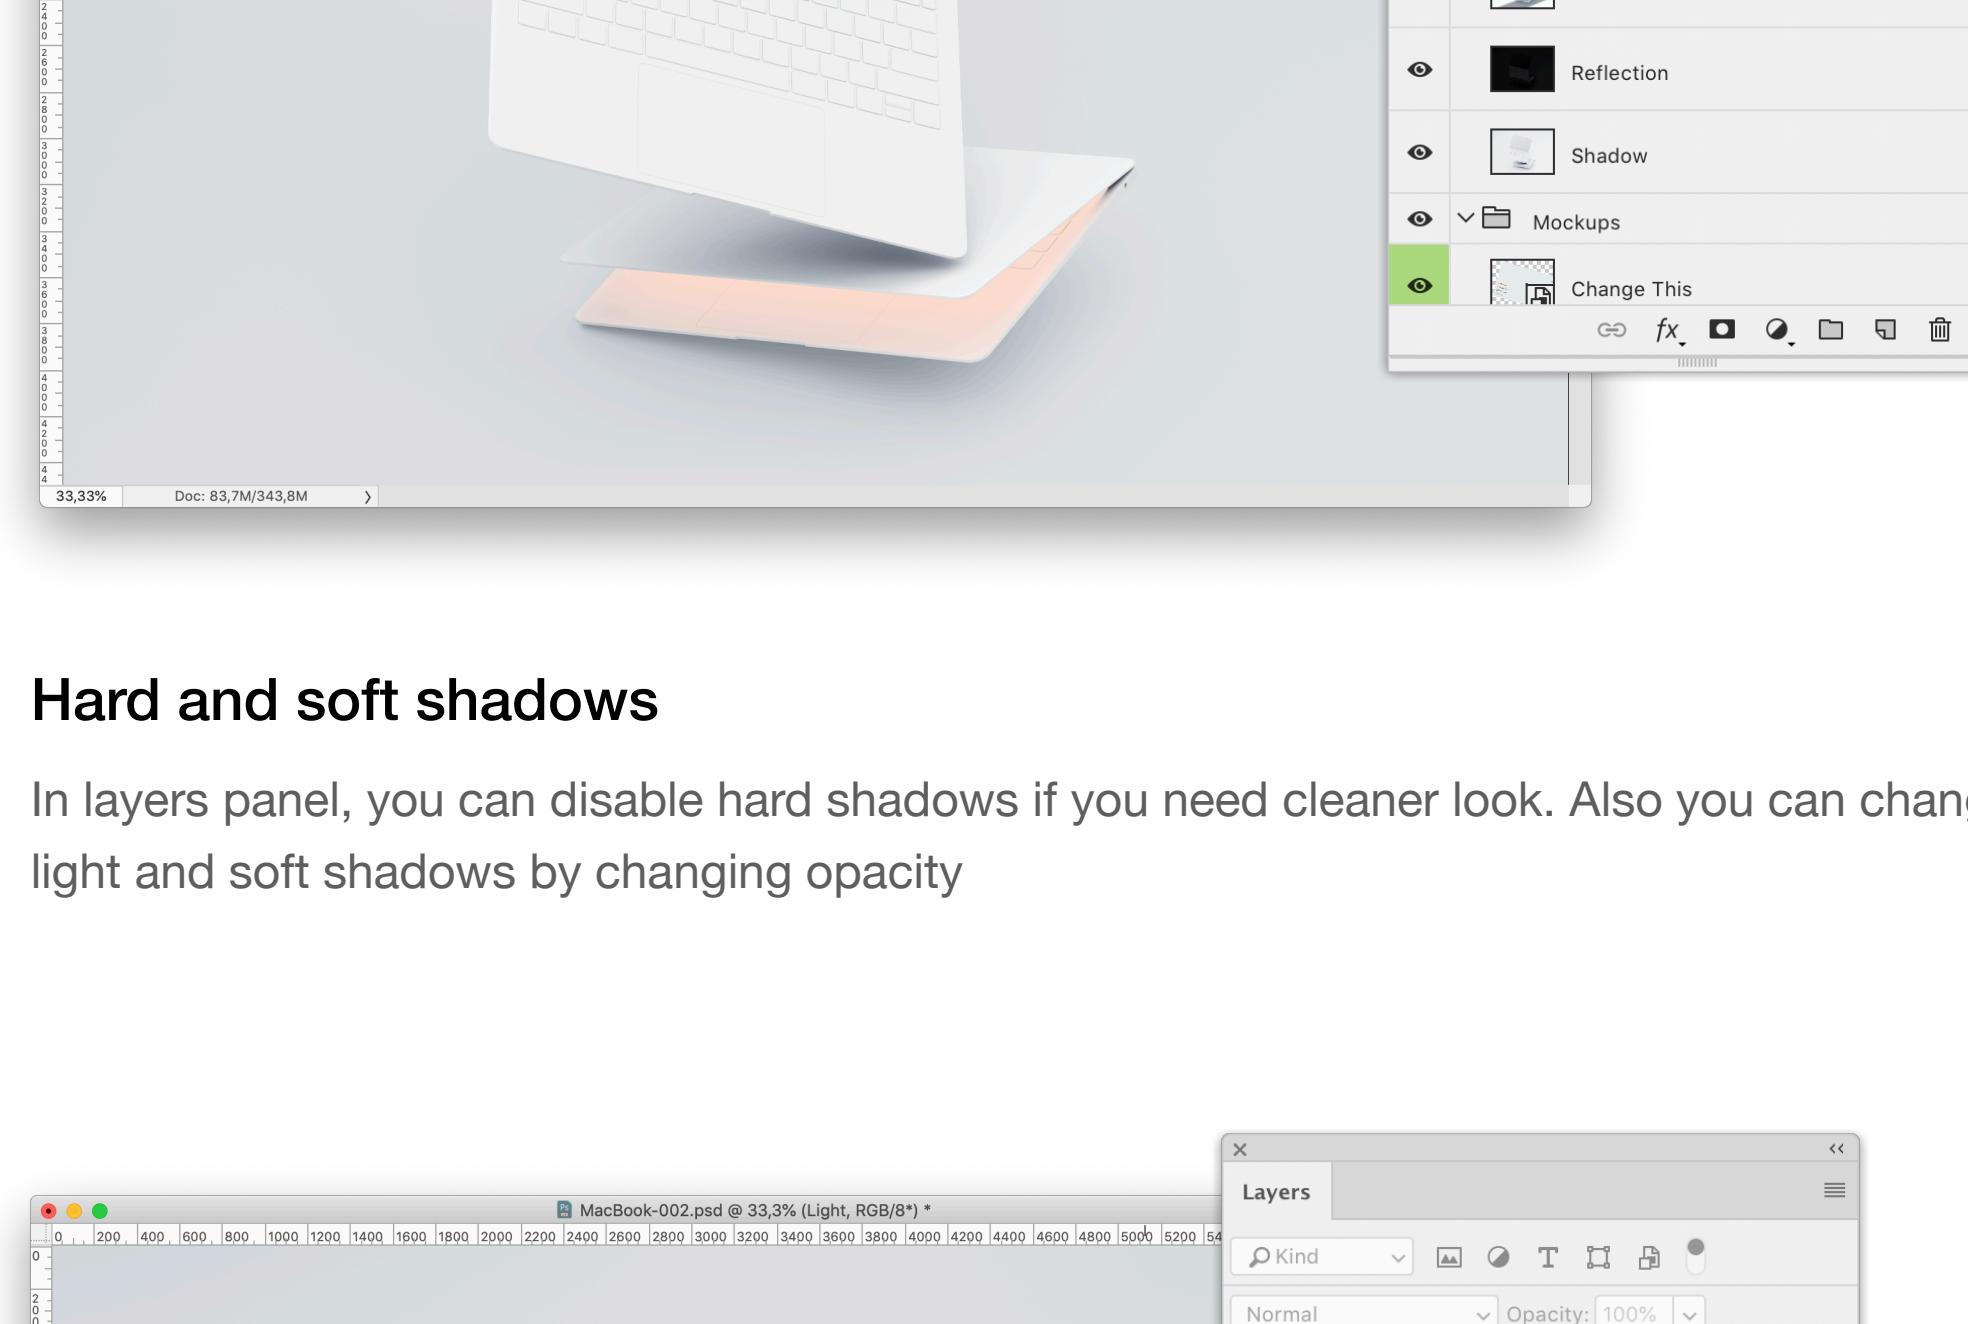

# N. Mockups

## Photoshop version

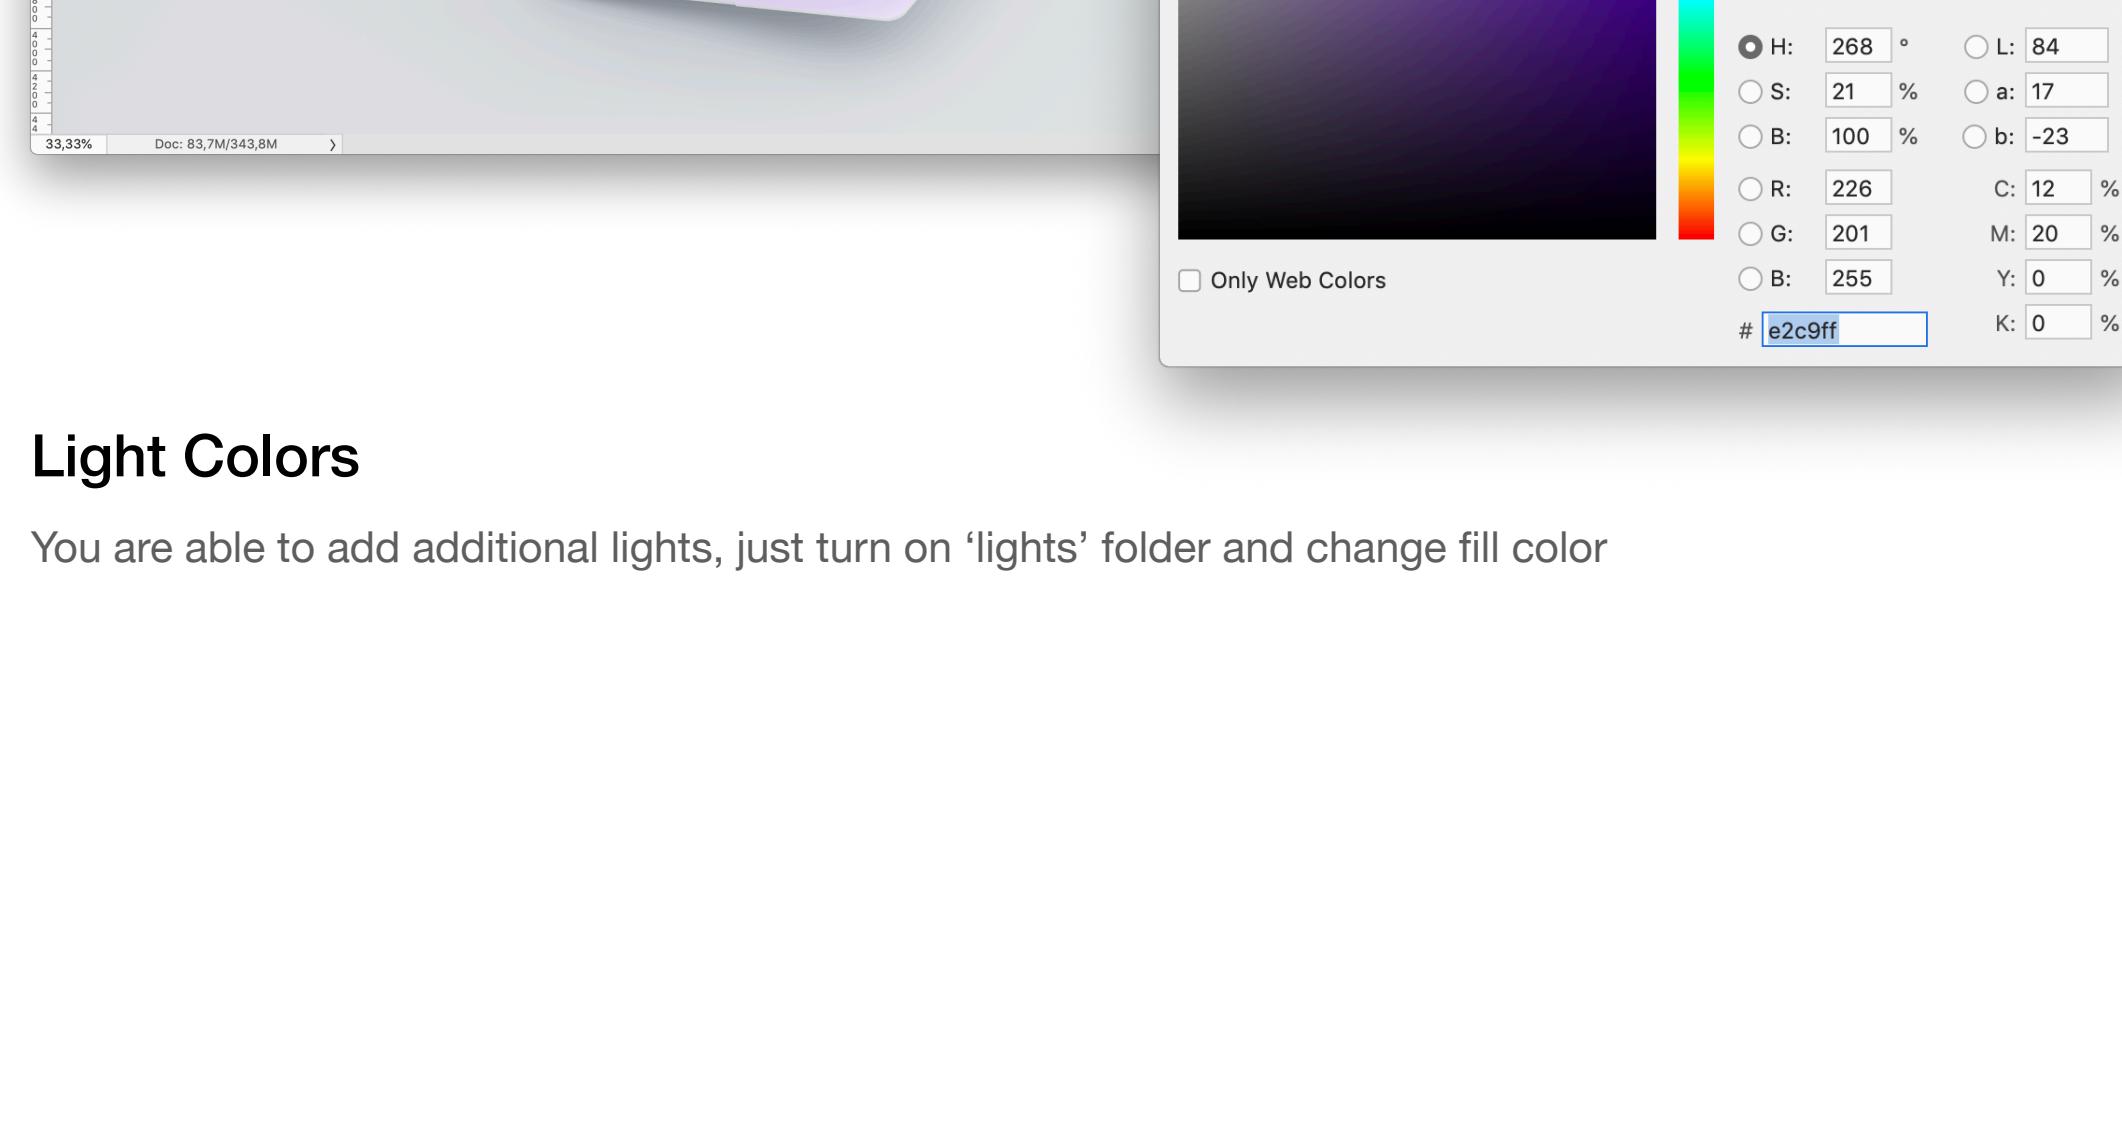

Find the “Change this” layer, click twice on the icon and a new window will open. Insert your design in the window, close it and save

Click on the Change Color layer’s icon to change color.
